BLACK'S LAW DICTIONARY

Has long ranked as the best practical one-volume law dictionary for student and for office, because—

It gives definitions of the terms and phrases of American and English jurisprudence, ancient and modern, including the principal terms of international, constitutional, and commercial law.

It is admittedly the most exhaustive one-volume law dictionary sold.

Although it contains 1314 double-column pages, thin paper has reduced the thickness to 2 1/2 inches.

You do not have to investigate the merits of a law dictionary that has been the standard for twenty-nine years.
